## Who We Are

We have been in the business for over 15 years caring mainly for Japanese Americans. We also cared for Chinese and other regions of people.

Our main theme in daily life is Japanese. Our staff understands the language and the legacy and the culture.

The life is quiet here with many trees, shrubs and bamboo grove. The property is completely fenced all around with a gate and tucked away from the busy streets. However, there are many things that can make your life enjoyable and interesting.

Situated near Del Paso Country Club, our tree lined property boasts one acre of park-like setting where residents enjoy bird watching, feeding critters like squirrels and domestic chickens.

We have enough space for anyone wanting to do gardening if residents desire or just relax with dogs around your feet in a warm spring day.

In a cool summer morning, we often put our lunch table outside under a cherry tree. It is hard to believe that we are right in the middle of Sacramento.

We just completed renovation and added rooms with private bathrooms. For those who know us previously, we encourage you to come and stop by.

## What We Do

We provide 24 Hour Care and Supervision.

Our Care Costs are much lower for the residents compared to a nursing home.

Quality of our care exceeds most of nursing homes because we provide more detailed personal care to each resident. Our residents love to come back to us after staying.

We provide skilled nursing care.

We cook Japanese Gohan (rice) and Okazu with MISO SOUP.

We also do picnics in our yard when the weather is right. Here in Sacramento California, the weather is always nice.
